Subject: Dimock - Need to Expedite Project Level Review of Outstanding Data

Hi Cindy -

As you know, we are still expecting to finalize all remaining data this week for release next week. I wanted to touch base to see where we stand with respect to the project level review of the data which has yet to be released.

1) Project level review complete/data final. HQ's review complete. Region finalizing format for the residential reports noted below. No additional review from lab(s) required.

- Round 2 metals results for the 4 wells re-sampled in May -
- Re-analysis of lithium results for 57 wells sampled in Jan/Feb
- Rad sample results for the 61 wells sampled from Jan - March

2) Supplemental Round 1 results for the 3 new wells sampled in May

Initial Verification/Completeness Check:

- | | |
|------------------------------|---|
| - R2 MBAS | SERAS Comments submitted 6/12/12 |
| - R3 Metals, VOC, SVOC, etc. | SERAS Comments submitted 7/15/12 |
| - R6 Glycols | SERAS Comments submitted 7/11/12 |
| - R9 GRO | SERAS Comments submitted 6/12/12 |
| - R9 RSK (Dissolved Gases) | SERAS Comments submitted 7/13/12 |
| - NAREL RAD | SERAS Comments submitted 7/11/12 |
| - NEL Micro data | SERAS review is ongoing for the data posted 7/13/12 |

3) Sampling/ analyses of HW-8a and HW-8b for Mn only in July

- SERAS review is ongoing for the data posted 7/13/12

A response from the lab(s) to each of the above SERAS reviews is needed to complete the loop. (Please note that no additional qualifiers were recommended for the R2 MBAS, R9 GRO and RSK.) To meet the current schedule, we really need a response from the lab(s) by **COB tomorrow 7/17/12**. Once we have a response/agreement on final qualifiers, the final data qualifiers will be entered in SCRIBE and the final data reports will be provided to the Region 3 tox and HQs for review. It is my understanding that we need to get these reports to HQs by Wed 7/18/12.

I am following-up with the contractor regarding the review of the Micro data and HW-8a/b Mn data posted on Friday. The contractor will need to expedite their review to meet our schedule.

Hope this info helps - sorry for the pressure. Please contact me via e-mail or cell Ex. 6 - Personal Privacy with any questions.

Thanks - Kelley
